# Halloween Costumes

Princesses, pirates, zombies and mummies you are sure to find on Halloween night. Some people have the idea of their Halloween costumes planned the day after the past Halloween, but if you are like me, on October 31 your mind changes eight times. So, what costume are you going to choose!? Lucky for you, I have a list of great Halloween costumes at your disposal.

But before this, I will tell you some of the answers from my survey. 59.8% voted "I absolutely love Halloween" while a measly 0.5% said, "It isn't my thing." In my second question, for popular costumes 41.3% voted they "don't really know" what is popular, while 2.1% said "super star". For my third question, 20.6% said "I don't know" for the type of Halloween costume and 7.4% said "group costume".

For my last question, I asked what people are going to be for Halloween. Some of the answers were a cat, dough-nut girl, and a musketeer.

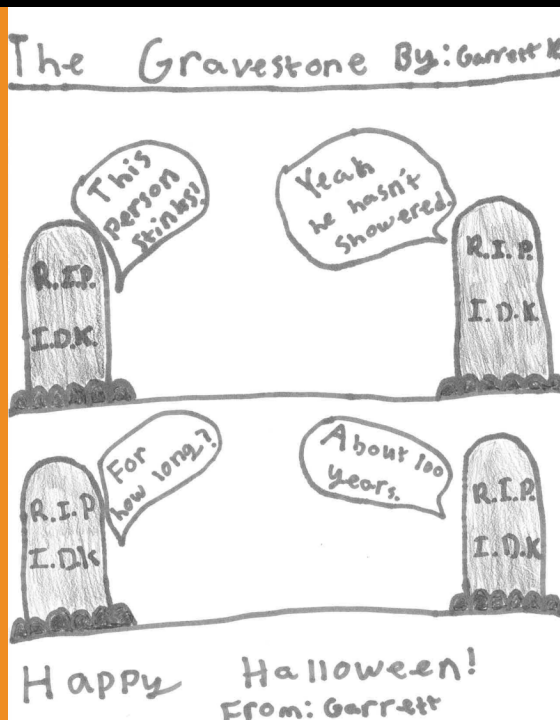

Now it's time for the list of Halloween costumes! Some costume ideas are: sushi, cactus, an emoji, Disney Princess, Eleven from Stranger Things, character from an anime show, a woodland spirit, a singer from your favorite band, fruit (not joking!), bowl of cereal, unicorn, or mermaid. Other costume ideas could be: demon, gorilla, morph-suit. Can't wait to see what you will be at the Halloween parties!

# Book Review

Our book review for this week is Percy Jackson and The Lightning Thief. I personally really like this book because even if you don't know about the Greek gods and goddesses, you're still able to follow along. As you learn, so does Percy Jackson. It is a great adventure story and is very suspenseful. There's an adventure at every turn and has relatable characters. I can't give enough praise to this book. A lot of the people I have talked about this book have greatly enjoyed it. For a while, I wouldn't read Percy Jackson, but when I actually read it, I absolutely loved it. The Lightning Thief is the first book in the series and it's amazing. It's about how Percy Jackson learns what he really is and his struggles along his daring adventure with his friends. He has to retrieve the stolen Master Bolt that belongs to The King of the Greek Gods, Zeus. With prophecies and backstabbing characters. You will never be bored with this book.

## School Uniforms!

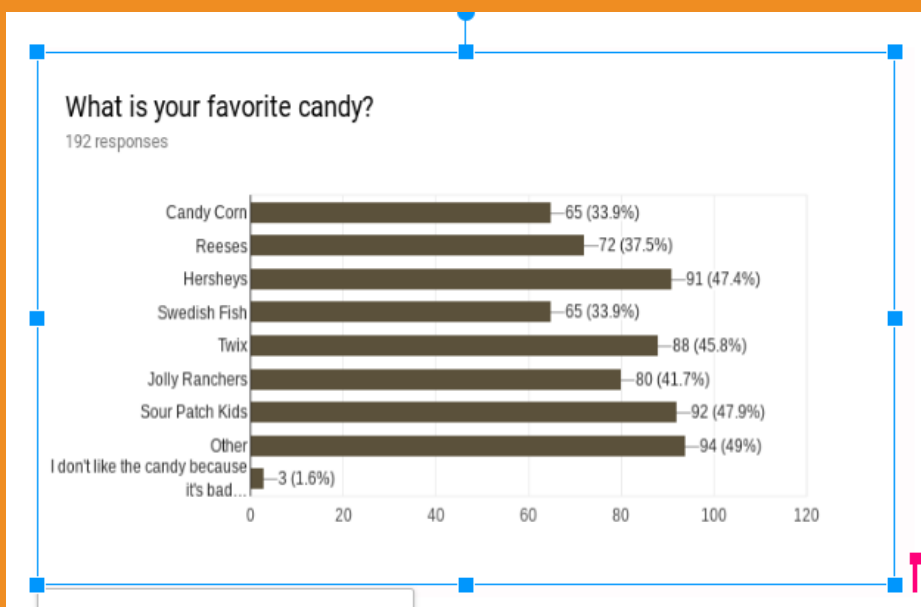

Hi! I'm Keira and I'm Josie! Today we interviewed Mrs. Kellett, our amazing school counselor about school uniforms. First off, we asked her if she had to wear school uniforms when she was a kid. Here was her answer: "No, I did not." Next, we asked her if she was for or against school uniforms. She said I like the idea of kids having the choice of what they wear. The next question we asked is if she thought school uniforms were stylish. Here are the results They have a classic look, but I feel like they all look similar. Overall Mrs. Kellett doesn't exactly agree with school uniforms but she doesn't seem to hate them. Next, we interviewed our incredible school principal, Mrs. Buell. We asked her the same questions. Mrs. Buell had worn school uniforms growing up unlike Mrs. Kellett. Mrs. Buell is against school uniforms. If she could make everyone wear school uniforms she definitely wouldn't, and doesn't think that they are stylish. Mrs. Buell is clearly against school uniforms. We hoped you enjoyed reading this and be sure to read the next Braves Weekly Newspaper!

# Favorite Part of Fall

...continued from page 1 "Favorite Part of Fall"

For most people, Halloween is their favorite part of fall. Most people go trick or treating. Although most people go trick or treating, there is a small percent that do not. My guess is these people are in either fourth or fifth grade. I think this because for most younger kids, Halloween is an exciting holiday because of the dressing up, costumes, etc. whereas some of the older kids do not go trick or treating or have parties. There are still many older kids that go trick or treating and I will definitely be one of them this year and for years to come.

Some people's favorite part of fall is the weather. The weather in fall is nice. The air is crisp and the temperature is perfect. Some people don't like fall because of the leaves and allergies. That is why some people like the weather and some people don't.

Another part of fall people like is the fall sports. These include soccer and football, as well as many others. That is a little about fall sports.

These are some examples of people's favorite parts of fall. For the most part people like fall. And I do too.
