

Virtual **CODING** **CLUB** **AFTER-SCHOOL**

Virtual Coding Club is a fun versatile way to learn to code in a social, after-school setting.

WHAT KIDS LEARN IN VIRTUAL CODING CLUB

Virtual Coding Club teaches programming and game design, using JavaScript. The lessons are online and interactive. Throughout the lessons, members develop a portfolio of videos, filters, games, chatbots, simulations, and more.

REQUIREMENTS FOR VIRTUAL CODING CLUB

- ✓ Age: 9+ years old *(by the first day of the club)*
- ✓ Any computer with browser access and reliable internet connection
- ✓ Small group members must also have a web camera, mouse, and microphone.

CODING CLUB *Enrollment* **OPTIONS**

OPTION
1

Small group club members

move through **300 JavaScript lessons** at their own pace and get **weekly support** from fellow club members and a professional educator.

OPTION
2

Self-guided club members

have access to all **300 JavaScript lessons** for the school year. However, only small group club members are able to join in the weekly sessions.
