### Forecast Purpose/Objectives

Ohio Department of Education's purposes/objectives for the five-year forecast are:

1. To engage the local board of education and the community in the long range planning and discussions of financial issues facing the school district.
2. To serve as a basis for determining the school district's ability to sign the certificate required by O.R.C. §5705.412, commonly known as the "412 certificate."
3. To provide a method for the Department of Education and Auditor of State to identify school districts with potential financial problems.

Forecast Methodology - This forecast is prepared based upon historical trends and current factors. This information is then extrapolated into estimates for subsequent years. The forecast variables can change multiple times throughout the fiscal year and while cash flow monitoring helps to identify unexpected variances no process is guaranteed. The intent is to provide the district's financial trend over time and a roadmap for decisions aimed at encouraging financial sustainability and stability.

Note: Cash balance (Line 7.020) plus any existing levy modeled as renewed or new during the forecast.

In FY 2024 a revenue surplus is expected. This means that expenditures are expected to be less than revenue by -\$165,984 in FY 2024. By the last year of the forecast, FY 2028, the district is expected to have a revenue surplus where expenditures are projected to be less than revenue by -\$121,001. The district would need to cut its FY 2028 projected expenses by -0.25% in order to balance its budget without additional revenue.

The district's cash balance is positive at year-end in FY 2024 and is projected to improve by FY 2028. A worsening cash balance can erode the district's financial stability over time.

Ohio adopted the Fair School Funding Plan (FSFP) in FY 2022. The plan was continued with increasing phase-in of the formula results. In FY 2024 the per pupil base cost calculations were updated from FY 2018 cost data to FY 2022. For Indian Hill Exempted Village School District the calculated Base Cost total is \$16,982,716 in FY 2024. The state's share of the calculated Base Cost total is \$1,719,815 or \$809 per pupil.

The district does not have an income tax levy.

*\*Projected % trends include renewal levies*

### 1.035 - Unrestricted Grants-in-Aid

Funds received through the State Foundation Program with no restriction.

Beginning in FY 2022 Ohio adopted the Fair School Funding Plan (FSFP). Funding is driven by a base cost methodology that incorporates the four components identified as necessary to the education process. The Base Cost is currently calculated for two years using a statewide average from historical actual data.

For Indian Hill Exempted Village School District the calculated Base Cost total is \$16,982,716 in FY 2024. The state's share of the calculated Base Cost total is \$1,719,815 or \$809 per pupil.

The FSFP also started funding students where they attended school. Therefore district educated enrollment is now used for per pupil funding. At the same time, the FSFP eliminated tuition transfer payments from school districts.

### 1.040 & 1.045 - Restricted Grants-in-Aid

Funds received through the State Foundation Program or other allocations that are restricted for specific purposes.

Restricted aid is the portion of state per pupil funding that must be classified as restricted use. The expenditures in this forecast are adjusted to reflect this change.

### 1.050 - State Share of Local Property Taxes

Includes funds received for Tangible Personal Property Tax Reimbursement, Electric Deregulation, Homestead and Rollback.

State Share of Local Property Taxes primarily consists of reimbursements from the state of Ohio for local taxpayer credits or reductions. In FY 2024, approximately 10.5% local residential property taxes will be reimbursed by the state in the form of rollback credits and approximately 0.3% will be reimbursed in the form of qualifying homestead exemption credits.

*\*Projected % trends include renewal levies*
